Fabric PP Woven Fabric (Laminated/Un-Laminated)

"It serves a lot of industries all over the world as they provide the best solution for strong, dependable and economical packaging. We manufacture PP Woven Fabric /Rolls in Flat & Circular Form, which can be best used as packing materials, for Packing of Food Grains, packing of Chemical & Fertilizer, etc. We offer fabrics/Rolls in different sizes and can also be customized as per customer specifications."

Bags BOPP Laminated Bag / Sacks

"We also offer beautiful collections of Biaxially Oriented Polypropylene Film BOPP Laminated Bag to our valuable customers. These bags are manufactured in excellent quality, high tensile, strength, good dimensional stability, flatness, corona treatment on one or both sides, waterproof, moisture repellent, excellent transparency, gas and moisture barrier properties and other plastic films for enhancing product functions at a cost-effective price.

FIBC Flexible Intermediate Bulk Containers (FIBC)

"FIBC are most popular form of bulk goods packaging bags in market. FIBC Bags are made from graded polymers that are sourced from premier manufacturers. They are known for their strength and consistency. FIBC BAGS are commonly known as BIG BAGS, JUMBO BAGS, BULK BAGS, ONE TON BAGS, container bag, mesh bags, which are used for transporting various types of industrial materials and food products."

Our clients

"Our clients are at the heart of everything we do. At Jisr United Middle East Trading, we are dedicated to understanding the unique needs and goals of our clients and providing tailored solutions that exceed expectations. Our commitment to excellence, innovation, and client satisfaction sets us apart, and we look forward to continuing to serve and support our valued clients in achieving their success.
